One of the chief things done was the election of delegates to annual conference. The following were chosen: W. S. Johnson, Henderson; D. F. Melton, Sebree; J. B. Ferguson, Providence; J. S. Hendricks, Earles. The alternates are W. D. Brown, Hanson; Jno. R. Wilson, Corydon.

CONFEDERATES TO BE G. A. R. GUESTS AT GRANT'S TOMB.

Senator Blackburn Will Deliver the Oration of the Day.

New York, April 28.—Four hundred confederate veterans, members of the local company, are to be the guests of the U. S. Grant post, G. A. R., on Memorial day, and from 9 a. m. until late at night the veterans of the armies will mingle. Senator Blackburn of Kentucky is to deliver the oration of the day at Grant's tomb. It will be the first time confederate veterans have marched with Union veterans in this city.

Prof. Boring Dead.

Prof. Hanson Boring, one of Madisonville's oldest citizens and a well known educator, died in Welaka, Fla., April 24. His remains reached Madisonville Thursday and he was laid to rest in Grapevine cemetery the same afternoon.

A majority of the men and women who have grown up in the past thirty or forty years in Madisonville were pupils of Prof. Boring and no man in that town was more loved and respected. He lives in the memory of all.

In 1900, 61,196, 180 pounds of honey and 1,766,315 pounds of beeswax were produced in this country.

## PENNYRILE MINSTRELS

Bright Theatrical Talent of Madisonville Will Black Up.

MAY 16 IS THE FUNNY TIME.

An especial treat is promised theatre goers in the coming production by the "Pennyrile Minstrels" at Morton's Theatre, Madisonville, Tuesday night, May 16.

The best theatrical talent of Madisonville is included in the cast and no doubt is felt that the minstrel show will be the most enlivening home talent attraction that has been offered.

A number of the leading names announced for the minstrel are known to Earlington people and are on their list of prime favorites.

These are the promising men: Ernest Dunkerson, James Franceway, Inkerman Bailey, John Sugg, Luther Bruce, Geo. Vinson. And they are sure to fulfill the promise.

John Sugg and George Vinson are to be the stars in the list of dancers. Both are original in their work and the peers of many a professional.

Inkerman Bailey will do a fine stunt at lightning cartooning with local, personal hits. Mr. Bailey's particularly attractive colored cartoons, which he has produced as advertisements of the minstrel show, and which adorn the Madisonville show windows, give promise of interesting work on the stage.

J. Y. Cabaness, of Evansville, will appear in the role of monologist, in which work he has established a reputation.

Ernest Clayton, Horace Beard, Gardner Shanks, Blount Jones, and others will sing the latest ballads assisted by quartets and choruses. The singing talent of the company is excellent and this will be one of the best features of the show.

The prices are 75, 50, 35, 25c, and the management has reserved the entire gallery for the colored people.

ROBBED DAN SULLIVAN

Took Nineteen Dollars Out of His Pocket While He Slept.

The home of Dan Sullivan was burglarized Saturday night. The thief went through Dan's trousers and took \$19 in bills and silver. Entrance was made through a window, two of which were found open in different rooms next morning. The thief or thieves got away without creating any alarm. A pocket book was also taken but was found to contain only papers and it was found lying on the window sill, indicating, it is thought, that the thief came back and left it there after he had examined its contents. There seems to be no clue.

The same night the residence of John Brinkley was entered, but nothing of value was taken.

Death Claims Mrs. John Waller.

Mrs. Zena Glenn Waller, who was brought home from Florida a few weeks ago suffering from the dread disease, consumption, died Wednesday night at the home of her father, Prof. J. J. Glenn, in Madisonville, and was buried Friday at Hopkinsville. Mrs. Waller was the only daughter of Prof. Glenn and a lovely Christian woman. She leaves a husband and a little daughter whom their many friends deeply sympathize with in their loss.

### COMMENCEMENT EXERCISES.

Madisonville High School at Morton's Theatre Last Night.

The commencement exercises of the Madisonville High School class was held at Morton's Theatre last night when the following students graduated: Ethel Porter, valedictorian; Isabel Resiky Gardiner, salutatorian; Ma Mae Hibbs, Ellie Margaret Gardiner, Mary Elizabeth Givens, Mary Emma Patterson, Earnest Patterson.

The class address was delivered by Everett Jennings. The presentation of premiums was conducted by Lee Gibson.

### TWO DEMOCRATIC CANDIDATES.

Senatorial Aspirants Will Need a Primary to Decide.

Chas. M. Meacham and J. E. Moseley, both of Christian county, are aspirants for the Democratic nomination for State Senator from Hopkins and Christian counties.

The effort to have but one candidate and to have the "senatorial committee" nominate him failed and now plans are being made for a primary. Mr. Meacham was the first to announce and was followed by Mr. Moseley before the time limit for announcements fixed by the committee.

Bryan Declines to Appear.

William Jennings Bryan has declined to appear before the Senate committee on interstate commerce to testify in relation to government regulation of railroad rates. He has replied to an invitation extended to him by Senator Elkins, chairman of the committee, to appear before the members, stating that it would be impossible for him to come, owing to other engagements. This action of Mr. Bryan, considered in connection with the attitude he has assumed for several months past, was rather surprising. He was called, but failed to respond to make good the many assertions he has made orally and in print.

BISHOP WOODCOCK.

Eminent Episcopal Churchman Will Preach Here Friday Night.

Bishop Charles E. Woodcock, who presides over the Louisville diocese of the Episcopal Church, will preach here tomorrow, Friday, evening at 7:30 o'clock in the M. E. Church, South. He is to speak at Madisonville tonight. Bishop Woodcock has been in Louisville but a short time having been elected to succeed the late Bishop T. U. Dudley, but he has taken the highest rank with the churches in Louisville and an enviable place in the hearts of thousands of those who have heard him preach.

Bishop Woodcock is an exceptionally clear, logical and eloquent speaker. The church should be packed to its capacity to hear the Bishop, and it probably will be.

A Good Man Gone.

Mr. Travis Strickland Grady, familiarly known as "Uncle Trav," died April 28, at his home near Moss Hill, at the ripe old age of 85 years.

He was a good man and will be missed in the community. He was the father of eight children, five sons who have gone before and three daughters who survive him. His wife died some fourteen years ago. The funeral services was conducted by Rev. Fowler of Madisonville, and he was interred at Flat Creek.

## JNO. T. BARNETT CITY MARSHAL.

Clarence Mitchell Appointed Deputy Marshal, Now on Regular Night Duty.

J. W. IGLEHEART HAS RESIGNED TO GO WEST.

At a meeting of the City Council Monday night the resignation of J. W. Igleheart as city marshal was accepted and John T. Barnett was appointed to fill the unexpired term. Mr. Igleheart's resignation was tendered in view of his expectation to move to Oklahoma or California in the near future. During his incumbency of office Mr. Igleheart has made a record that has not been open to any criticism, either as peace officer or tax collector. Few men are found who fill such difficult position with as even temper and general devotion to duty as has Mr. Igleheart.

Mr. Barnett is entirely at home in every detail of the varied work of a successful peace officer and entered upon the duties of the office at once with some clever detective work that promises to break up certain juvenile depredations of the past week.

Jno. T. Barnett is widely known as an efficient officer, having formerly served as City Marshal for Earlington for a period of ten and a half years. After resigning from this position on July 15, 1899, at which time he was succeeded by W. Riley Coyle, Mr. Barnett served for some time as a special deputy sheriff of Hopkins county at a time when there was need of cool, determined men to preserve the peace and protect life and property. Later Mr. Barnett moved to St. Louis and during his term of residence there did some special work for the railroad and terminal companies.

Clarence Mitchell, who is appointed deputy marshal, has also established a reputation as an exceptionally good officer, although his work has been confined chiefly to occasional appointment as extra policeman on special occasions. He is on duty at night and will look well to the peace and security of our citizens and their property.

SUITS OF AUDITOR'S AGENT FOR BACK TAXES DISMISSED.

Court Holds All Property Has Been Assessed and Taxes Paid.

The sensational suits recently filed in the Hopkins county court by the attorneys for the Auditor's agent asking that Coal Companies of Hopkins county pay additional taxes for three years on \$3,400,000 a year for "mines" alleged not listed, have been dismissed.

The St. Bernard and other coal companies, parties to the suit, filed answer denying all allegations. The case came up for trial before Judge Bradley and the court took it under consideration, examined the evidence and dismissed the case, adjudging that all property had been assessed and taxes paid.

TRACTION CASE

Continued in the Federal Court to Next November.

The Madisonville Traction case, in which Earlington is interested, came up in the Federal Court at Owensboro this week and was continued until the November term. No attorney for the Traction company appeared at court.

Dr. King served on this board for two years prior to his removal to St. Louis. He was a Knight Templar and twice a candidate for Congress on the Democratic ticket.

He was married in 1865 in Germantown, Ky., to Miss Margaret A. Finckert, daughter of V. O. Finckert, a merchant of Cincinnati. He is survived by his wife and two sons.

### HOPKINS COUNTY FARMERS

Moving for Organization to Handle the Tobacco Situation.

ANOTHER MEETING AT MADISONVILLE NEXT SATURDAY.

A meeting of Hopkins county farmers was held in the court house at Madisonville Saturday, according to announcement, for the purpose of discussing the tobacco situation and furthering an organization for its control. F. F. Brown, president of the Hopkins county organization, presided.

Because of the absence of Congressman A. O. Stanley one of the chief features of the program, Mr. Stanley's speech, had to be omitted. Mr. Stanley's well-known eloquence and ability as a speaker is a drawing card anywhere he is announced for a speech, and he has made a study of the tobacco question and has attended a number of such farmers' gatherings.

Good short talks were made by Hon. Polk Laffoon, L. R. Fox, C. C. Givens and J. E. Hartford.

Another meeting will be held next Saturday at 1:30 o'clock at the Court House in Madisonville at which Congressman Stanley is expected to appear and deliver an address. Felix G. Ewing, chairman of the executive committee of the Clarkeville district organization, is also announced for a speech. Circuit Court is in session and a large attendance is expected.

### An Open Letter.

From the Chapin, S. C. News: Early in the spring my wife and I were taken with diarrhoea and so severe were the pains that we called a physician who prescribed for us, but his medicines failed to give any relief. A friend who had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand gave each of us a dose and we at once felt the effects. I procured a bottle and before using the entire contents were entirely cured. It is a wonderful remedy and should be found in every household. H. C. Bailey, Editor.

This remedy is for sale by St. Bernard Drug Store, Earlinton; B. T. Robinson, Mortons Gap; Jno. X. Taylor, Earlinton.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a constitutional disease and prescribed local treatment, pronouncing it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Thos. N. Black, while driving through the old Hopkinsville road between the "plum orchard" and Barnsley several days ago, saw that he at first thought was a big, bushy tailed dog following a cow along a woods path. It proved to be an enormous red fox, which had thus far eluded the local hunters. The animal dodged into the brush at the sound of Mr. Black's voice.

## FARLEY IN COMMAND

The Noted Strikebreaker Arrives In Chicago to Crush Union Labor.

Non-Union Forces in Unprecedented Numbers on Way to the Seat of Strife.

Chicago, May 2.—President Roosevelt has wired from Glenwood Springs that he will give the strike leaders an opportunity while he is in Chicago on May 10, to present their petition asking that he attempt to settle the present strike, as he did that of the miners three years ago.

Owing to the short time he will be in the city it will be impossible for the president to hear any committees or take any action at that time.

The petition will be presented and Mr. Roosevelt will give it his attention as soon as he returns to Washington.

Chicago, May 2.—The wholesale importation of non-union men from St. Louis and the advent of Strikebreaker Farley from New York has given a new turn to the teamsters' strike.

Immediately on his arrival Farley held a conference with representatives of the employers. Plans for putting him in charge of all "strikebreakers" are said to have been decided.

Non-union forces in numbers said to be almost unprecedented are on their way to Chicago. Many are negroes from the south. A train load of several hundred white and colored strikebreakers arrived from St. Louis, and more are expected.

## NOTE OF DISCORD BREAKS HARMONY

A New Aspect Given to the Chicago Strike Situation.

### TEAM OWNERS HAVE BALKED

Employing Some But Union Men They Flout the Strike.

Chicago, May 2.—The strike situation in Chicago assumed a peculiar aspect Tuesday, and by night the interests which have been opposing the striking teamsters were not as united as heretofore.

The cause of this slight dissension is the Team Owners' association, which has contracts with the team owners and many of the large firms throughout the city to transfer their merchandise. Until Tuesday it was supposed that the Team Owners' association and their allies were firmly bound together in the fight for supremacy against the teamsters.

Refusal to Make Deliveries.  
The Team Owners' association, which employs none but union teamsters, flatly refused to make deliveries to any of the firms now involved in the strike, when ordered to do so by the Team Owners' association.

When the employers received this ultimatum they notified the team owners that unless they recognized the request that no discrimination be made in deliveries, an effort would be made to have all existing contracts between the team owners and the business houses and the railroads cancelled.

Meeting at Union League Club.  
Monday the Employers' Team Association sent word to the large team owners that they desired to know where they stood in the present fight. Many of the members of the teaming association have contracts for the delivery of coal with the team owners, who have so far failed to make any deliveries since the beginning of the strike. The team owners would not give a definite reply as to what could be expected of them. Tuesday, afternoon, at the Union League club, a meeting was held between representatives of the Employers' association and the large team owners. It was the desire of the members of the teaming association to bring as much pressure to bear upon the team owners as possible, and with this view they had invited to the conference representatives of the railroads entering the city. The team owners stated their position exactly. They would not attempt to deliver coal to any firm where a strike is now in progress, giving as reasons for their refusing that their own men would be called out and they would be involved in the trouble with which they considered they had no direct concern.

The Railroad Men, Too.  
The railroad men, contrary to the hopes of the members of the Employers' association, did not exert the influence on the team owners that was expected. They took practically the same stand, declaring that the fight was something into which the railroads did not properly enter, that they had contracts with the team owners; that these contracts were at present being fulfilled to their entire satisfaction, and they could see no reason why the railroads should be dragged into the struggle.

An exception to the general attitude of the Team Owners' association was made by the Central Supply association, a large concern which employs 280 teams. The officers of this company declared that they would make deliveries wherever their contracts called for them, irrespective of strike conditions.

A Temporary Injunction.  
Judge C. C. Kohlsaat, of the United States circuit court, at the request of the attorneys representing the several companies, issued a temporary injunction restraining all persons from interfering with the wagons of the petitioners or the men employed upon them.

The fighting in the streets, Tuesday, was even more fierce and savage than that of Monday. The strikers and their strikers attacked the non-union men at every opportunity, assailing them with bricks, stones, clubs, knives and any and every other kind of an offensive weapon upon which they could lay their hands.

Numerous Casualties.  
As far as known but one man, Charles Beard, was killed during the day. The list of injured, 34 of which are known, is much greater than that which it is possible to obtain. In many cases the non-union men avenge their deaths with great effect, knocking men from their wagons headlong into the street; in other instances, when assaulted by mobs, they fired point blank into the crowds, and it is difficult to see how the members of the mob could escape many broken heads or how all the bullets fired during the day should have gone wild.

They Cut out the Rifles.  
Although it was announced, Monday night, that the teams of the express companies and of the Employers' association would be handled by men armed with rifles, nothing of the kind was attempted save in the case of 16 drivers employed by the Scott Transfer Co. Mayor Dunne and Chief of Police O'Neill made every effort to prevent the carrying of rifles, and Superintendent Reed of the teaming association informed them he had not contemplated arming his men as stated. The Scott men carried rifles through out the day, and some of them were mo-

lented.

The strike did not spread Tuesday in any degree. No more men were called out, and from present appearances there is no immediate prospect that any more teamsters will strike.

### MR. SAGER "HEARD RUMORS"

They Had Reference to the Missouri Senatorial Contest.

St. Louis, May 3.—The St. Louis grand jury, acting under the direction of Circuit Attorney Sager, has resumed the inquiry into certain sensational rumors growing out of the recent contest in the Missouri legislature for United States senator.

Mr. Sager says he intends to make investigation exhaustive and far-reaching. He already has caused some of the most prominent politicians in the state, while a score of others have been summoned.

In the budget of sensational gossip is a chapter telling of the sudden prosperity of rural lawmakers.

One lawmaker had a fine team of horses, so a story goes, which he wanted to sell.

"How much do you want for the thoroughbred?" asked a politician.

"Five thousand dollars," the lawmaker is said to have replied.

"It's a little high, but I guess we have to meet your price," were the politician's words in closing the deal.

"If it is true it is certainly a suspicious circumstance," said Circuit Attorney Sager when he heard this story. Those who are thought to have knowledge of it will be called on to testify before the grand jury.

One of the most persistent reports current is that a St. Louis representative was offered \$10,000 if he would present investigation started, but the impression at the four courts is that the circuit attorney "heard rumors" and thought it advisable to at least run them down.

FROM PRISON TO TESTIFY.  
Curtis Jett and Tom White Taken to Lexington, Ky., to Testify Against the Hargises.

Lexington, Ky., May 3.—Curtis Jett and Tom White, both under life sentences for the murder of Marshal James Cockrill of Jackson, has been brought

from the penitentiary as witnesses against the Hargises, now on trial on charge of having employed the actual murderers. Sensational rumors are in circulation concerning the story they are expected to tell.

THE BRIDE HAD A HEADACHE.  
Now She Is Down With Smallpox, and Preacher and Guests Are Quarantined.

New York, May 3.—Because the minister and all the wedding guests at a Middlesex county marriage kissed the bride and danced with her, there is consternation throughout a section of the county for the bride is down with smallpox and there is no doubt she was suffering from the disease at the time of the ceremony. Miss Magdalen Fessler, now Mrs. John Gaub, Jr., is the bride. They were married at the German Presbyterian church, South River, on Sunday, April 23. She had complained to friends of feeling ill and that her head ached, but this was attributed to excitement and fatigue. Now the church has been closed, and Rev. Wm. Kern, who exercised his ministerial prerogative and kissed the bride is in quarantine.

CORTLEYOU HEARS A BUZZ.  
The Presidential Bee Is Singing to Him, and It Isn't the Equitable One Either.

Washington, May 3.—It appears well established that Mr. George B. Cortleyou has received a tentative and indirect offer of the presidency of the Equitable Life Assurance Co.

The one thing which it is understood would stand in the way of Mr. Cortleyou taking the place when the formal tender is made is his ambition to be president of the United States. While he is without a constituency and has lived in Washington as an officeholder and clerk long enough to make the District of Columbia his home, he has an ambition to be president, and, it is said, has received some encouragement in this connection from some of the powerful eastern interests which were always friendly to Mr. Cortleyou.

## MINING NOTES.

Earth Swallows Mining Plant.

The earth literally opened in Joplin, Mo., April 29 and swallowed the \$8000 mining plant of the Holy Smoke, on the Aylor land south of Carterville, reducing that mill to kindling wood and half burying the debris 100 feet below the surface. The \$10,000 contracting ore plant of the Lucky Judge, adjoining, is so seriously threatened by an extension of the cavern that it is being rapidly dismantled.

The hole in which the Holy Smoke mill went' down is 400 feet broad and 100 feet deep, with a capacity of 16,000 cubic feet of earth.

Fifteen men at work in the underground drifts were warned by the groaning of the earth and escaped an hour before the first crash came.

State Mine Inspector Ragland is aroused by this and another disastrous cave-in a short time ago under the tracks of two railroads in Joplin, and declares that a radical change in the cave system of zinc mining must soon come about.

J. W. Lester of the carpenter crew, was in Madisonville Tuesday on business.

As a result of the failure last week of the P. J. Potter's Sons banking house at Bowling Green, Ky., a suit has been filed in that city asking for the appointment of a receiver for the Green River Mining, Manufacturing and Transportation Company. The petition alleges that the company is indebted to the bank in the sum of \$20,000. It is also stated that owing to disagreement among the stockholders the property is depreciating in value. The company has been operating large coal mines at Coffman, on Green river, and owns several towboats and a number of barges and about 2,000 acres of coal lands.

Mr. Wallace Crenshaw, who has been boss driver at No. 11 mine for sometime past, is now foreman at that mine succeeding Mr. Jno. R. Evans, who has in charge of the city coal chute and yard at No. 9 mine.

Mr. Bert McGregor has been appointed boss driver at No. 11 mine.

Lonnie Burdon, of Hillsdale, Ky., is visiting relatives here this week.

### MARRIED BY WIRE.

One at Bowling Green While the Other Was in Far Away Wyoming.

Mary C. Slaughter, of Bowling Green, Ky., and James C. Murrell, of Fort Mackenzie, Wyo., were married April 27th by telegram. The bride, attired in the usual veil and white wedding dress and accompanied by a number of friends, was at the Bowling Green end of the line and answered the usual questions. A minister was at each end of the line. The telegrams uniting the happy pair only cost \$2.70. This is the second couple Manager Causey, of the Western Union, has recently assisted in marrying when the bride and groom were separated by several thousand miles. Murrell is Post Quartermaster Sergeant at Fort Mackenzie. His regiment will leave in a few days for the Philippine Islands. He desired his bride should come to the fort and be married, but she preferred the ceremony to be performed before starting on such a journey. The woman will accompany her husband to the Philippines.

## MAY DAY.

The beautiful spirit of loving and giving displayed in Earlington on May day might well be emulated generally. It has become a fixed custom among many of the children of this place during the past few years to prepare "May baskets" on May day and leave them on doorsteps of friends after nightfall, giving alarm by bell or knocker to attract the recipient to a sweet surprise. Monday evening the electric lights were conveniently out for a time and the little flower missionaries owned the town for a little while. The sport was delightful and its purpose altogether lovely. Wild flowers were the favorites. Hill and valley had been ransacked and made to give of their profusion of sweet spring blossoms.

Loving hands made bright little baskets which bore the sweetest things from nature's garden and lay them at the feet of friends in loving tribute. This is a rare custom in this section of the country but one that we hope will grow.

If knockers were bell ringers what sweet and constant melody would fill the air!

POSTMASTER GENERAL CORTELYOU is inclined to be rather pointed in his remarks to postmasters who are especially active in politics, and seems to be making his position in the matter plain.

ANDREW CARNEGIE has made a new and munificent gift for the relief of college professors in the United States and Canada who are not able to continue in active service. The amount of the gift is \$10,000,000 and the interest only on this sum is to be used. Mr. Carnegie is doing great things for education with his wealth.

A ST. PETERSBURG dispatch says that Mr. Chas. M. Schwab is to build a new navy for the Russians that will have a higher efficiency than any now existing, and closes by saying that "Russia desires the ships to be turned over as early as possible." If history should repeat itself after this great navy is built the Japanese will quickly accomplish this last expressed desire of Russia.

VIOLENCE of the worst sort is daily enacted in the Chicago teamster's strike where business, property, life, everything is submerged, destroyed in the efforts of unionists to hold absolute control of the commerce of a great city. Tuesday a Presbyterian minister was set upon and mercilessly beaten as he walked along the street. He had no connection whatever with the strike and such cases are numerous. It is the worst strike yet recorded for indiscriminate violence.

It is announced that there will probably be as many as nine resignations from the precinct and city and county executive Republican committees at Louisville tonight, because of the recent ruling in regard to Federal employees holding political positions. Collector Craft has written to all employees in his department who hold any political position asking that they comply with the order to at once resign.

membership on all political committees or resign their positions in the revenue service. The order of the "Honorable Secretary of the Treasury" seems destined to make many changes in Kentucky Republican organization.

## A THOUGHT FOR THE WEEK.

### An Editor's Parting Shot.

On retiring from the Citizen the editor fired the following parting shot:

"Owing to the increasing attacks of heart disease and the failure of the people as a community to give their support to the Citizen to an extent that would warrant the employment of a practical man to do the hard mechanical work of the office, the undersigned, following the peremptory advice of three physicians, relinquishes with this issue the lease and editorial control of the Citizen, and will engage in editorial work elsewhere, where honest, conscientious work will gain some reward."

"The few merchants and professional men who have advertised in the Citizen have our hearty thanks."

"Those whose skulls God made so thick, and their hearts so bigoted, that they can see no mitigating circumstances in the mistakes or shortcomings of others, are welcome to preserve within their narrow mental faculties any opinions they may have formed of either the Citizen or its editor."

"To all those who have in any way assisted us we are genuinely grateful. To our advertisers and subscribers everywhere, thanks and good luck!"

"This action on our part is entirely voluntary. We don't care particularly about falling dead while turning the big wheel of a newspaper press in order to save 75 cents; and as three reputable specialists have repeatedly warned us that such is likely to be the end, we are constrained to follow their advice and confine our humble efforts to the pen instead of dividing honors between that useful article and the lifting of heavy 'formes' of iron and type metal."

## FEMALE WEAKNESS

543 1-3 Congress St.  
Portland, Maine, Oct. 17, 1902.  
I consider Wine of Cardui superior to any other medicine I ever used, and I know whereof I speak. I am a married woman, and I have suffered for many months with suppressed menses, which completely prostrated me. Pains would shoot through my back and sides and I would have to get up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed to be beyond the help of physicians, but Wine of Cardui came to my aid. I took a box for the better while a week. After six days I began to feel better. I continued without stopping the medicine I usually did and soon became regular and without pain. Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

Periodical headaches tell of female weakness. Wine of Cardui cures permanently nineteen out of every twenty cases of irregular menses, bearing down pains or any female weakness. If you are discouraged and doctors have failed, that is the best reason in the world you should try Wine of Cardui now. Remember that headaches tell of female weakness. Secure a \$1.00 bottle of Wine of Cardui today.

## M. E. Bishops Sanction Only Scriptural Divorce.

Louisville, Ky., May 1.—The semi-official conference of the bishops of the Methodist Episcopal church, by resolution, gave paragraph 66 of the discipline the force of law. The paragraph provides that no divorce, except for scriptural reasons, shall be recognized by the church as lawful, and that no minister shall solemnize a marriage where there is a divorced wife or husband still living. One exception, however, is made in the case of innocent parties to a divorce for adultery, and of divorced persons seeking to be reunited in marriage.

## KING TERROR'S REIGN IN WARSAW

Nearly One Hundred People Killed and Wounded in That City May Day.

## MANY WOMEN AND CHILDREN AMONG THE DEAD AND DYING.

Troops fired in a procession of workers, and then fired into the ranks. A bloody battle of the May Day festivities—Bomb Throwing at Work.

Warsaw, May 2.—Nearly one hundred persons were killed or wounded in disturbances in various quarters of Warsaw Monday. The troops apparently were uncontrollable, and violated all orders to act with moderation. They fired into the crowds of demonstrators, and workers in retaliation resorted to the use of firearms and bombs. Many women and children are among the dead and dying. What approaches a reign of terror exists; the city presents a most gloomy aspect and the temper of the entire community augurs ill.

May day opened with every prospect that the recent gloomy forebodings would find contradictory results. Glorious weather ushered in the beginning of the celebrations, and all factories, shops and offices of every description were closed.

## A Cowardly Attack.

No untoward incident was reported until afternoon. The first disturbances occurred between 1 and 2 o'clock p. m. When a procession of several thousand workers carrying red flags marched along Zelazna street. The demonstration was quite orderly and proceeded without molestation for some distance. Suddenly several squadrons of Uhlans appeared, but without interfering with the procession, and took a position along the sidewalks while the workers passed through the lines. Then a company of infantry approached from the front, and immediately the cavalry charged into the procession, driving it with the flat of their swords into a disorganized mass. The cavalry withdrew, the infantry fired a volley, whereupon the demonstrators turned and fled. The infantry continued to discharge volleys into the retreating, shrieking multitude. Thirty-one persons were killed and many wounded, and of the latter it is said 15 will die. The shooting is considered to have been unprovoked. It aroused the most intense indignation among all classes in Warsaw. Many of those who were killed or wounded were shot in the back, showing that they were running away when they were struck.

## Another Terrible Scene.

Another terrible scene was enacted at 5 p. m., at the corner of Ziota and Sennars streets, when workers fired from behind a wall at a patrol, which immediately opened fire on the passing crowds, killing or wounding 20 persons. The first bomb throwing occurred at 9:35 p. m., when a bomb was thrown into a Cossack patrol near the Vienna station. Three Cossacks and one policeman were killed, and two women who were leaving the station at the time, were severely wounded by the explosion of the bomb. Cossacks and infantry fired a number of volleys, and it is reported that many persons were killed or wounded.

At 10:45 disturbances broke out in the Zombkowska gate of the suburb of Praga, across the Vistula river. A great crowd had assembled there, threatening the troops, when hussars fired on the crowd, killing four and wounding many others.

## REAL RELIGIOUS LIBERTY

Easter Gift of Emperor Nicholas of Russia to His Subjects.

Real Religious Freedom Is Conferred by Imperial Rescript—A Historic Event.

St. Petersburg, May 2.—Real religious freedom, conferred upon his subjects by Emperor Nicholas as an Easter gift, is an historic event of the highest significance in comparison with which the remission of millions of dollars of taxes to the peasantry, the long list of decorations and six pages of promotions of bureaucratic officials are hardly worth commencing on.

Liberty of conscience has been repeatedly proclaimed, and Procurator Pobedonosteff in his famous reply to the evangelical petition of 1888 contended that it existed in the empire. The fact is that as a trying place, all religions have been tolerated in Russia, but none has been allowed to trespass upon the orthodox faith as enunciated from the mosque that faces the church on the Nevsky Prospect in St. Petersburg.

People were free to remain true to the religion of their fathers, but were forbidden to make proselytes.

The emperor's act will also affect about 40,000,000 belonging to alien faiths, such as the Jews, Catholics and the Lutherans of Poland and the Baltic Provinces, the Protestants of Finland and the followers of Islam and Buddha in the Ural, the Caucasus, the Crimea, Turkestan and Central Asia.

## HE USED MANY METHODS.

An Official Who Stole to Squander On His Many Women Friends.

San Francisco, April 29.—It is estimated by the experts at work on the books of the city tax collector's office that the alleged shortage of J. Edward Smith will amount to a total of at least \$85,000. The collector's office item of \$19,000 which had not been entered, and also detected several smaller shortages.

The methods used by the tax collector to conceal his operations are declared to have been many, involving much labor on the part of the experts to trace them.

The police believe that most of the money taken from the city was spent by Smith for the benefit of women friends, one of whom is alleged to have accompanied him in his flight.

According to the Bulletin, when Smith left this city last Wednesday he was accompanied by a woman, who, on the previous night, had said she was going to Hot Springs, Ark., "to meet a man who had made \$50,000 in one day."

## SOME DIPLOMATIC CHANGES.

They Are to Be Made in the Interest of Harmony With Our Southern Neighbors.

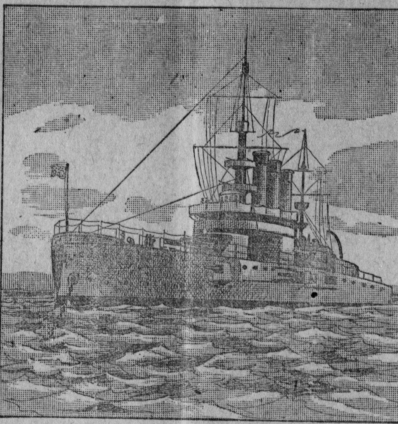

Washington, April 29.—A change is contemplated in the near future in the American ministries in Venezuela, Panama, Colombia and Chili, with the purpose of relieving the tension which exists at the capitals of some of these countries. It is believed by a proper rearrangement of this kind and transfer of officials the relations between the Washington government and the governments of some of the countries named can be made closer and the conduct of business be facilitated.

## BAD STORMS IN MISSOURI.

Thousands of Dollars' Damage Done Property and Crops in Various Localities.

Jefferson City, Mo., April 30.—Thousands of dollars' damage was done property and crops by terrific wind storms that swept over Missouri between 11 p. m. and 1 a. m. Saturday. From nearly a score of cities reports have been received of houses unroofed, barns and fences blown down, trees uprooted by wind and agricultural lands deluged with rain. Reports are also numerous of buildings struck by lightning and several persons were hurt, though there is no record of fatalities.

## THE STORK COMING AGAIN.

The Wife of the President Sews and Smiles Softly to Herself.

Washington, May 2.—The sweetest and dearest experience of a woman's life, as the immortal Louisa M. Alcott, in "Little Women," expressed it, is once more to Mrs. Theodore Roosevelt, wife of the president. Having returned from her series of little outings, she is at home for some time to come, and puts in her time sewing and smiling softly to herself like any other wifely woman.

## THIRTEEN MINERS PERISH.

Believed a Bad Shot Set Off Large Quantity of Dynamite in an Oklahoma Mine.

Wilburton, Okla., May 2.—By an explosion from unknown causes in the Missouri, Kansas & Texas Coal Co.'s mine No. 19, thirteen miners were entombed, and it is not thought any have survived. There is little prospect of recovering the bodies for several days.

The force of the explosion was so great that it is suggested that a bad shot set off a large quantity of dynamite stored conveniently for work in pushing the entries.

## Overtaken and Killed.

El Paso, Tex., April 20.—Word has reached El Paso that Tom Gentry, who is alleged to have waylaid and killed Wash Parker, a ranchman of Wood, N. M., had been overtaken by the posse, and that while resisting arrest, he was shot and killed by Deputy Sheriff Green.

## Gen. Young in Mexico City.

# SAY, YOUNG MAN,

Had You Ever Thought About What You Can do With \$25 and \$10 a Month Thereafter For a Year or Two?

You can buy one of those beautiful lots on Waddill Avenue, to be sold at auction May 11, 12 and 13. Waddill Avenue is the first street north of Noel Avenue, and in a year or two will be built up from one end to the other with handsome homes. When the building begins every lot will rapidly increase in value. See? If you want a nice lot in a splendid location for a home, you can't buy one anywhere else for twice the money that you can purchase one of these for at this sale. If you want it for a speculation, it is sure to double or treble in value as soon as the building gets started on that street.

So get the first \$25 ready, and the rest is easy. In a year or two you will have a lot that will sell for twice what it cost you. It may be you have been "blowing" in your money for frivolities. Stop this and invest your loose change in Waddill Avenue lots and become a real estate holder and you will soon have all sorts of money to rattle in your pockets and be wearing diamonds.

Remember the date of sale:

## MAY 11, 12 and 13.

Be there the opening day for these lots will probably all be sold that day.

I wish to state for the Foeberg Remedy Co. of Evansville, Ind., that I believe their great blood purifier, saved my brother's life some ten years ago. He was born with a blood disease, and seemed he could get no relief until he took Foeberg's Remedy some as manufactured by this company. After taking five bottles he was entirely relieved of his trouble, and when he died some five years ago he was entirely well of that disease. I also took two bottles as a blood purifier and was much benefited.

### LOCOMOTIVE BLASTS

LOCOMOTIVE THAT NEEDS NO COAL OR WATER

Ordered for a Chicago Railroad.

Three thousand miles without a stop, and at the rate of 100 miles or more an hour, is the capacity of a new type of locomotive which has been ordered by a railroad making its headquarters at Chicago. If it does all that its makers promise for it, this locomotive, which is a revision of the Diesel engine, will revolutionize transportation. The locomotive, or, really, power house on wheels, is entirely different from anything now in use. The cost of operating it will be less than one-half the cost of operating the present type of steam engine. Fuel oil, costing but three or five cents a gallon, is the only fuel that has to be purchased, and there is no necessity of erecting and maintaining an expensive water tank or coal chutes. The machine is what is known as the four-stroke cycle. There is a compressed air reservoir from which the power is obtained for starting. This gives the piston

its first strokes when it takes the air alone at atmospheric pressure and temperature. The second stroke compresses this air and raises it to a temperature of about 1000 degrees Fahrenheit. The third stroke is practically an expansion, with stroke. The oil is sprayed into the hot air, the amount being regulated by governors. During the first part of this stroke the combustion of this oil is carried on at a constant pressure for a period that is regulated by the amount of oil sprayed. The second part of the stroke is practically an expansion, with transference of heat, and the fourth stroke exhausts the gases.

PAUL JONES BODY

Exhumed After Hundred Years is Lifelike and Seems in Calm Sleep.

Washington, May 1.—Interesting dispatches were received at the state department from Ambassador Porter, giving additional details regarding the recovery and identification of the body of John Paul Jones. The ambassador says:

Finding that the body showed some signs of changing in appearance from exposure to the air, as soon as the examinations were completed I had it treated at the Ecole de Medicin with a preparation which I am assured will prevent any deterioration. The body was then redressed in the shirt and sheet in which it was found and carefully packed so as not to be injured by shocks in transportation, and replaced in its original coffin. This was inclosed in a leaden casket with a plate glass showing the head and chest and hermetically closed. Seals were then affixed in such manner that it could not be opened without breaking them. This was placed in an outer coffin of oak, and on the 20th of April the remains were quietly transferred from the school of medicine to the American church of the Holy Trinity and placed in the receiving vault, where it lies covered with the American flag. I went to the Ecole de Medicin this afternoon (April 18) and saw the remains of Paul Jones, with whose features I am somewhat familiar from the many prints, medals, etc., I have seen of him. They are wonderfully well preserved, the features bearing an expression of sleeping calm repose.

CORTEYOU GIVES FORECAST  
OF POSTMASTERS' RULES.Says First Duty of Incumbents Is to  
Conduct Their Offices Properly.

## THE LOUISVILLE POSTOFFICE CASE.

Washington Dispatch to the Globe-Democrat.

"The very best service a postmaster can give to his party is to conduct his office in a proper manner." This remark was made today by Postmaster General Corteyou in discussing the general subject of political activity of postoffice officials, not only as brought out by a case just decided in Louisville, Ky., but also in connection with the plan of the department, under the postmaster general's direction, to issue a new set of rules and regulations for the guidance of postal employees. He said to-day that the new rules will be but a summary of those already in existence, including the formal rules prescribed by the civil service laws, also the orders which have been issued from time to time by the President. These will all be codified and printed in the form of a single circular, a copy of which will be sent to all officials of the postal service for their information touching political activity.

The whole subject has been brought to the attention of the postmaster general in connection with the action of the assistant postmaster, at Louisville, Ky., who became a member of the Republican state central committee. The objection raised in this case was that the committee was engaged in raising funds for political purposes, and it is held by the postmaster general that such work should not be engaged in by the officials of the service, even to the extent of serving on committees which may be engaged in collecting funds for political operations. The department does not rule that officials not in the classified service shall take no part in politics, but points out how such work, if conspicuous, or connected with financial operations in political work, becomes offensive and contrary to good discipline and the good of the service.

## HE NEVER BLAMED THE BOOZE.

He took a bottle up to bed,  
Drank whisky hot each night;  
Drank cocktails in the morning,  
But never could get tight.  
He shivered in the evening,  
And always had the blues  
Until he took a bowl or two—  
But he never blamed the booze.

His joints were full of rheumatiz;  
His appetite was slack;  
He had pains between the shoulders;  
Chills ran down his back.  
He suffered with indigestion;  
At night he couldn't snooze.  
He said it was the climate—  
But he never blamed the booze.

His constitution was run down  
(It was overwork, he said);  
His legs were swelled each morning,  
And he often had swelled head.  
He tackled beer, wine, whisky,  
And if they didn't fuse  
He blamed it on dyspepsia—  
But he never blamed the booze.

He claimed he hardly slept at night,  
And always had bad dreams;  
He claimed he often lay awake  
Till early sunrise beams.  
He thought it was malaria—  
Alas! 'twas but a ruse.  
He blamed it on most everything—  
But he never blamed the booze.

His liver needed scraping,  
And his kidneys had the gout;  
He swallowed pills of bitters,  
Till at last he cleaned them out.  
His legs were swelled with dropsy,  
Till he had to cut his shoes;  
He blamed it on the doctor—  
But he never blamed the booze.

Then he had the tremens,  
And he tackled rats and snakes;  
First he had the fever,  
Then he had the shakes.  
At last he had a funeral,  
And, to give him his last dues,  
The epitaph carved for him was—  
"He never blamed the booze."

## ORIGIN OF CHICAGO STRIKE

Now a Vast Struggle to Maintain Union-ism's Control of Chicago's Commerce.

TEAMSTERS' UNION BROKE ITS CONTRACTS.

Chicago, Ill., April 27.—The strike, which threatens to become international and eventually end with the arrival of federal troops, is unique in that it started from the argument of workers' demand for a renewal of the scale and the closed shop, last November. The proprietors refused to grant the closed shop and the strike was ordered. It made poor progress and would have dropped out of sight but for frequent assaults and cases of brutality upon non-union workers. Finally the garment workers demanded that the federation of labor take up their failing cause.

It was agreed that the strike must be won to save the federation from disintegration. The teamsters' union, with no grievance of any character and contracts running three years, was chosen as the instrument to win the strike. It has been charged, and not vigorously denied, that the garment workers paid to have the teamsters drawn into the fight. It is also alleged, and not denied, that Montgomery, Ward & Co., against whom the strike was directed could have averted it by paying blackmail of \$3000. Angered by the breaking of contracts, both by the garment workers and the teamsters, the employers banded together and determined to win the struggle at any cost. They formed the Merchants' teaming association, incorporated in New Jersey, with \$1,000,000 capital. Every merchant is a member. As fast as his men strike he turns his teams over to the association.

Two days ago, seeing the futility of continuing the strike, the teamsters decided to call it off. When they applied for their positions they were informed that no men who had struck or taken part in riots would ever be re-employed. This led to a conference, at which all the unions, realizing that it was a life-and-death struggle, decided to fight it out. There are 250,000 men employed in Chicago, and every one will be called out, according to the plan.

BY CUTICURA

"I had suffered terrible agony and pain for eight long years from a terrible eczema on my scalp and face. The best doctors were unable to help me, and I had spent a lot of money for many remedies without receiving any benefit. My scalp was covered with scabs, my face was like a piece of raw beef, my eyebrows and lashes were falling out, and sometimes I felt as if I was burning up from the terrible itching and pain. I then began treating myself at home, and now my head and face are clear and I am entirely well. I first bathed my face with Cuticura Soap, then applied Cuticura Ointment to the afflicted parts, and took Cuticura Resolvent for the blood. I was greatly relieved after the first application, and continued use of Cuticura soon made a complete cure. Miss Mary F. Fay, Westboro, Mass."

Spring is considered the best time of the year to start in the bee business.

Iowa leads all other states in the production of honey and North Carolina markets the most beeswax.

In olden times the honey was gathered by allowing the bees to work at will in small straw skeps until the close of the season, when they were destroyed by sulphur fumes.
